- WRITING ARTICLES

PROFILE

A Motivated BTech student specializing in Artificial Intelligence and Data Science, with a strong interest in full-stack development. Eager to apply my knowledge of AI and web technologies to build impactful, end-to-end digital solutions while continuously learning and growing in a tech-driven environment. An organized and motivated individual, eager to utilize time management and organizational skills across diverse settings. Seeking entry-level opportunities to enhance abilities while contributing to company growth.

EDUCATION

10TH

BHAVANS VARUNA VIDYALAYA

12TH

NAIPUNNYA PUBLIC SCHOOL

BACHELOR OF TECHNOLOGY IN AI & DS

MENTOR ACADEMY FOR
DESIGN
ENTREPRENEURSHIP
INNOVATION AND
TECHNOLOGY

PROJECTS DONE

LAND TRACKING APP

- Developed an application for tracking and verifying land records by integrating government land databases and GIS technologies to ensure transparency and accuracy in land transactions.
- Designed and developed the front end using Flutter for an intuitive user experience. Implemented backend services to handle land record storage, retrieval, and verification.

NUMBER GUESSING GAME

- A Number Guessing Game In Python Is a simple game where the program generates a random number, and the user has to guess it within a certain number of attempts. The program provides feedback on whether the guess is too high, too low, or correct

HOSPITAL MANGEMENT

- Developed a Hospital Management System using C programming to efficiently manage patient records, doctor details, and appointment scheduling The system utilizes file handling for data storage, ensuring seamless record retrieval and updates
